

Jephete Fenelon
Cybersecurity Analyst

Endpoint Security | Vulnerability Management | Cloud Security & Zero Trust

Deer Park, NY 11729 | 631-482-4476 | jeph.fenelon@gmail.com | Portfolio: <https://jfenelon-cyber.github.io> |
GitHub: <https://github.com/jfenelon-cyber> | LinkedIn: <https://www.linkedin.com/in/jephete-fenelon-64aa35214>

Professional Summary:

Cyber Security Intern with hands-on junior-level experience in **cybersecurity operations, endpoint management, vulnerability and patch management, Windows administration, remote endpoint and IT support, software deployment, enterprise communications, technical documentation, and operational reporting**. Experienced using **Action1 Endpoint Management** for endpoint monitoring, vulnerability assessments, patch management, software deployment, compliance reporting, endpoint inventory, and troubleshooting. Proficient in **Grandstream Wave, Microsoft Authenticator, Cloudflare Zero Trust, and Cloudflare Tunnel**, supporting **user onboarding, multi-factor authentication (MFA), endpoint administration**, and enterprise technology deployments. Collaborated with **management, vendors, and IT teams** to deliver cybersecurity reports, executive summaries, **KPI dashboards, risk assessments**, and operational reports. **CompTIA A+, Security+, and CySA+ certified**. Seeking an entry-level role as a **Junior Systems Support Technician, IT Security Analyst, IT Operations Analyst, Junior Cybersecurity Analyst, or Endpoint Management Analyst**.

TECHNICAL SKILLS & CORE COMPETENCIES

IT & System Administration:

- Windows 11 Administration
- Remote Endpoint Support
- Software Installation & Deployment
- System Troubleshooting
- User Onboarding

Cybersecurity Operations:

- Vulnerability Management
- Patch Management
- Endpoint Security
- Incident Response
- Risk Assessment

Enterprise Technologies

- Grandstream Wave
- Microsoft Authenticator
- Cloudflare Zero Trust (Tunnel)
- Microsoft 365
- Unified Communications

Networking & Infrastructure

- DNS Verification
- TCP/IP Networking
- Windows Firewall
- Network Troubleshooting
- Infrastructure Support

Endpoint Management:

- Action1 Endpoint Management
- Endpoint Monitoring
- Endpoint Compliance
- Endpoint Inventory
- Endpoint Remediation

Documentation & Professional Skills:

- Technical Documentation
- Process Documentation
- Executive Reporting
- Knowledge Transfer
- Team & Vendor Collaboration

Cyber Security Intern

Twigs Naturals | Remote (Trinidad & Tobago)

May 2026 - July 2026

- Performed **vulnerability assessments, endpoint monitoring, and security posture analysis** using **Action1 Endpoint Management** across Windows and macOS environments.
- Assisted with **patch management, vulnerability remediation, endpoint compliance tracking, and software update validation** to strengthen organizational cybersecurity.
- Supported **Windows endpoint administration, remote troubleshooting, software deployment, endpoint inventory management, and system validation** for enterprise users.
- Prepared **professional cybersecurity documentation**, including weekly vulnerability remediation reports, executive summaries, KPI dashboards, risk assessments, action items, and operational reports for management review.
- Developed and maintained **technical documentation**, including Standard Operating Procedures (SOPs), implementation guides, validation checklists, troubleshooting documentation, and version-controlled project documentation.

- **Supported deployment of the Grandstream Wave Enterprise Communications Platform**, assisting with desktop and mobile client installation, user onboarding, multi-factor authentication (MFA) configuration, extension provisioning, voicemail testing, and internal calling validation.
- **Collaborated with IT staff, management, vendors, and end users** to support enterprise technology deployments, troubleshoot technical issues, coordinate implementation activities, and maintain accurate technical documentation.
- **Assisted with endpoint troubleshooting, authentication, DNS verification, infrastructure support, and enterprise technology implementation**, including foundational exposure to **Cloudflare Zero Trust** and **Cloudflare Tunnel**.
- **Reviewed peer technical documentation, incorporated reviewer feedback, maintained version control, and improved documentation quality** and operational reporting standards.
- **Contributed to cybersecurity operations, IT support, systems administration, endpoint management, and enterprise communications initiatives** while demonstrating analytical thinking, technical writing, troubleshooting, and problem-solving skills.

EDUCATION & TRAINING

Adelphi University | Garden City, NY

March 2025 – October 2025

Advanced Cyber Security Bootcamp

- Completed Advanced Cybersecurity Program covering comprehensive topics such as IT Fundamentals, Security Fundamentals, and Security Analysis, including hands-on labs and capstone projects.
- Achieved proficiency in key areas such as network security, incident response, vulnerability management, and security operations, with certifications in CompTIA A+, Security+, and CySA+.

Hunter Business School | Levittown, NY

September 2024 – May 2025

Computer Technician Networking Specialist Diploma

- **Installed, configured, maintained, and troubleshot** computer hardware, software, printers, and peripheral devices.
- **Diagnosed and resolved** hardware, software, and network connectivity issues while documenting service activities.
- Configured and tested **Local Area Network (LAN) and Wide Area Network (WAN)** environments, including **routers, switches, hubs**, and related networking equipment.
- Created, terminated, and tested **Cat5e, Cat6, and fiber optic cables** while applying structured cabling and low-voltage networking principles.
- Gained hands-on experience with **Windows operating systems, networking fundamentals**, and entry-level **IT ticketing system workflows**.
- Applied **analytical thinking** and **problem-solving skills** to troubleshoot technical issues in classroom and lab environments.

PROFESSIONAL EXPERIENCE

Huntington Hospital | Huntington, NY

2006 - 2023

Patient Transporter

- Safely assisted with mobility, lifting and helping patients onto and off beds/tables, stretchers, and Hoyer lifts
- Maintained the highest standards of hygiene with patient transportation: sterilized and disinfected medical equipment up to hospital requirements, meeting and/or exceeding OSHA standards
- Maintained composure during emergencies involving security, medical, and fire-related calls

EMP Security Services | Uniondale, NY

2006 – 2019

Security Guard

- Maintained a safe and secure environment through access control, incident response, and facility monitoring.
- Responded to security incidents, documented activities, and enforced organizational security procedures.
- Demonstrated strong situational awareness, communication, and problem-solving skills.
